

**Professional
Services** ARINA

Looking for a silver lining when working with your investigations software?

Don't worry. Arina's tech experts will help you weather the storm. We provide a tailor-made service on an hourly basis to support you in the following areas:

Installation & Configuration

- Help with software and hardware installations
- System configurations
- On-site support

Workflow Consultation

- Analysis of the existing workflow
- Customization and optimization of your workflow
- Workflow-documentation

Individual Solutions

- Handling of complex data
- Custom reporting
- Automation via scripting
- Programming of specific modules

«We have got you
covered in stormy
times.»

Roman Locher, CTO Arina AG
